

PIMCO GIS Income Fund portfolio breakdown (% Gross Market Value)

As of 29 February 2024. SOURCE: PIMCO.

Gross Market Value (GMV%) is calculated differently than Percent Market Value (PMV%), which is the Fund's official sector reporting. GMV% does not include the notional value of swap exposures and excludes reverse repos from its calculation. "Government Related" includes nominal and inflation-protected Treasuries, agencies and FDIC-guaranteed and government-guaranteed corporate securities from the U.S., Japan, United Kingdom, Australia, Canada, and European Union. "Government-Related" excludes any interest rate linked derivatives used to manage the fund's duration exposure in the United States. Derivative instruments includes interest rate swaps, futures, and swap options. "ABS" contains traditional ABS, CLOs and CDOs. "Other" contains municipal securities and preferred stock or common stock obtained through restructuring opportunities.

Prior to October 2023 sector exposures were reported in terms of percent bond exposure (PBE%), which is defined as the market exposure inclusive of notional values. PBE% shows exposure to a given sector divided by the total assets of the Fund and does not utilize a derivative offset bucket like PMV%. Additionally, prior to October 2023, the "Government-Related" bucket excluded any interest rate linked derivatives used to manage our duration exposure in the following countries: the U.S., Japan, United Kingdom, Australia, Canada, and European Union (ex-peripheral countries defined as Italy, Spain, Cyprus, Malta, Portugal, and Greece). Portfolio structure is subject to change without notice and may not be representative of current or future allocations. **Portfolio structure is subject to change without notice and may not be representative of current or future allocations.**

Holdings are subject to change without notice and may not be representative of current or future allocations.

Investments made by a Fund and the results achieved by a Fund are not expected to be the same as those made by any other PIMCO-advised Fund, including those with a similar name, investment objective or policies. A new or smaller Fund's performance may not represent how the Fund is expected to or may perform in the long-term. New Funds have limited operating histories for investors to evaluate and new and smaller Funds may not attract sufficient assets to achieve investment and trading efficiencies. A Fund may be forced to sell a comparatively large portion of its portfolio to meet significant shareholder redemptions for cash, or hold a comparatively large portion of its portfolio in cash due to significant share purchases for cash, in each case when the Fund otherwise would not seek to do so, which may adversely affect performance.

Asset-backed securities (ABS) are bonds or notes backed by financial assets.

Collateralized Debt Obligations (CDOs) are an investment grade security backed by a pool of bonds, loans or other assets.

Collateralized loan obligation (CLO) is a single security backed by a pool of debt.

Collateralized mortgage obligation (CMO) refers to a type of mortgage-backed security that contains a pool of mortgages bundled together and sold as an investment.

A word about risk: Investing in the bond market is subject to risks, including market, interest rate, issuer, credit, inflation risk, and liquidity risk. The value of most bonds and bond strategies are impacted by changes in interest rates. Bonds and bond strategies with longer durations tend to be more sensitive and volatile than those with shorter durations; bond prices generally fall as interest rates rise, and low interest rate environments increase this risk. Reductions in bond counterparty capacity may contribute to decreased market liquidity and increased price volatility. Bond investments may be worth more or less than the original cost when redeemed. Investing in foreign denominated and/or domiciled securities may involve heightened risk due to currency fluctuations, and economic and political risks, which may be enhanced in emerging markets. Mortgage and asset-backed securities may be sensitive to changes in interest rates, subject to early repayment risk, and their value may fluctuate in response to the market's perception of issuer creditworthiness; while generally supported by some form of government or private guarantee there is no assurance that private guarantors will meet their obligations. High-yield, lower-rated, securities involve greater risk than higher-rated securities; portfolios that invest in them may be subject to greater levels of credit and liquidity risk than portfolios that do not. Equities may decline in value due to both real and perceived general market, economic, and industry conditions. Derivatives may involve certain costs and risks such as liquidity, interest rate, market, credit, management and the risk that a position could not be closed when most advantageous. Investing in derivatives could lose more than the amount invested.

PIMCO Funds: Global Investors Series plc is an umbrella type open-ended investment company with variable capital and is incorporated with limited liability under the laws of Ireland with registered number 276928. | PIMCO Funds: Global Investors Series plc has appointed PIMCO Asia Pte Ltd as the Singapore Representative. The Fund may use or invest in financial derivative instruments and be subject to various risks (including for e.g. liquidity risk, interest rate risk, market risk, credit risk and management risk etc.) associated with such investments in financial derivative instruments. The Fund's use of, or investment in, financial derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Participation in the markets for financial derivative instruments involves investment risks and transaction costs to which the Fund may not be subject if such strategies are not used. You should carefully consider these risks prior to making an investment in the Fund. Investors should consider the investment objectives, risks, charges and expenses of the funds carefully before investing. This and other information is contained in the Fund's Singapore Prospectus which is available and can be obtained from our website www.pimco.com.sg or by contacting the Singapore Representative or a distributor of the Fund. Prospective investors should read the Fund's Singapore Prospectus before deciding whether to subscribe for or purchase shares in any of the Funds.

Investors may also wish to seek advice from a financial adviser before making a commitment to invest and in the event you choose not to seek advice, you should consider whether the investment is suitable for you. The value of shares of the Fund and the income accruing to them, if any, may fall or rise. The Funds typically offer different share classes, which are subject to different fees and expenses (which may affect performance), have different minimum investment requirements and are entitled to different services. The information is not for use within any country or with respect to any person(s) where such use could constitute a violation of the applicable law. Past performance is not a guarantee or a reliable indicator of future results and no guarantee is being made that similar returns will be achieved in the future. Returns are net of fees and other expenses and include reinvestment of dividends. The performance data represents past performance and investment return and principal value will fluctuate so that the PIMCO GIS Funds shares, when redeemed, may be worth more or less than the original cost. Potential differences in performance figures are due to rounding. The Fund may invest in non-U.S. or non-Eurozone securities which involves potentially higher risks including

non-U.S. or non-Euro currency fluctuations and political or economic uncertainty. For informational purposes only. Please note that not all Funds are registered for sale in every jurisdiction. Please contact PIMCO for more information. ©2024.

Benchmark - Unless otherwise stated in the prospectus or in the relevant key investor information document, the Fund referenced in this material is not managed against a particular benchmark or index, and any reference to a particular benchmark or index in this material is made solely for risk or performance comparison purposes.

Where referenced in the prospectus and relevant key investor information document a benchmark may be used as part of the active management of the Fund including, but not limited to, for duration measurement, as a benchmark which the Fund seeks to outperform, performance comparison purposes and/or relative VaR measurement. Any reference to an index or benchmark in this material, and which is not referenced in the prospectus and relevant key investor information document, is purely for illustrative or informational purposes (such as to provide general financial information or market context) and is not for performance comparison purposes. Please contact your PIMCO representative for further details.

Correlation - As outlined under “Benchmark”, where referenced in the prospectus and relevant key investor information document, a benchmark may be used as part of the active management of the Fund. In such instances, certain of the Fund’s securities may be components of and may have similar weightings to the benchmark and the Fund may from time to time show a high degree of correlation with the performance of any such benchmark. However the benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.

Investors should note that a Fund may from time to time show a high degree of correlation with the performance of one or more financial indices not referenced in the prospectus and relevant key investor information document. Such correlation may be coincidental or may arise because any such financial index may be representative of the asset class, market sector or geographic location in which the Fund is invested or uses a similar investment methodology to that used in managing the Fund.

Investment Restrictions - In accordance with the UCITS regulations and subject to any investment restrictions outlined in the Fund’s prospectus, the Fund may invest over 35% of net assets in different transferable securities and money market instruments issued or guaranteed by any of the following: OECD Governments (provided the relevant issues are investment grade), Government of Singapore, European Investment Bank, European Bank for Reconstruction and Development, International Finance Corporation, International Monetary Fund, Euratom, The Asian Development Bank, European Central Bank, Council of Europe, Eurofima, African Development Bank, International Bank for Reconstruction and Development (The WorldBank), The Inter American Development Bank, European Union, Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Government National Mortgage Association (Ginnie Mae), Student Loan Marketing Association (Sallie Mae), Federal Home Loan Bank, Federal Farm Credit Bank, Tennessee Valley Authority, Straight-A Funding LLC, Government of the People’s Republic of China, Government of Brazil (provided the issues are of investment grade), Government of India (provided the issues are of investment grade).
